THE "TEXAS ESPERANTIST" starts the Jan. issue with a nice letter from Prezidanto Jozefo R. Scherer. The Esperanto Association of Texas is considering places for its 2nd annual Kongreso. The Estraro cites "small expense- and BIG ADVERTISEMENT to the winning city-or club". Mention of their "MIGRANTA EKSPozicio" sets us guessing as to whether it is patterned after the Automobile Library of the British Esperanto Association-ankoraŭ no particulars (tell us) Dr. E. D. Chase of Galveston is acclaimed as their first SUBTENANTO-ergo HERO. Two pages of Esperanto Lessons, by Rev. John H. Fazel (the editor), alternate lines Esperanto and English. Recently received word, from V-Pres., Philippa Stoneham, of the serious illness of Mr. Fazel. -We are quite sure that all who know brother Fazel will be sincerely praying for his early recovery.

estimate to work on with the steamship lines, etc. It appears that we can have a grand tour for some hundred dollars less than last year's Karavano, if we organize early and in large number.

OUR TENTATIVE PLAN. Attend the National Congress at Cleveland in as large a number as possible. A brief bit of visiting and sightseeing in New York before sailing. From New York on modern Steamer, Esperanto activities, classes etc., at sea. A tour of Esperantujo (Scandinavian Cities enroute to Congress or Ireland and Scotland). Pre-Congress meeting with Scandinavians and English in Newcastle-on-Tyne. UNIVERSALA KONGRESO in London. Esperanto-Domo in Netherlands. Belgium. Paris-and the Exposition. Meetings with Esperantists everywhere. Don't hesitate to write even though you may have individual plans as to cities you hope to visit, etc., because we want you with us on the steamer, at least, and will give you every travel assistance.

We are making every effort to outdo all previous tours. By your help now you will be entitled to certain privileges. Those who join at the last moment must expect to pay a higher rate-costs are higher after tour is organized.

MRS DAVE HENNING MORRIS (Founder of the International Auxiliary Language Association) spoke on the subject of "The Coming International Language" under the auspices of the "Council of International Relations" at a luncheon in the "University Women's Club" Washington, D.C., Saturday Jan. 22nd. She was introduced by the Belgian Ambassador who spoke in glowing terms of Mrs Morris' great success in cementing the bonds of friendship between the United States and Belgium-and the bestowal of a royal decoration by the King of the Belgians-while her husband was U S Ambassador to Belgium. Mrs. Morris touched lightly on the backgrounds of the six auxiliary languages under consideration by the I A L A., and stressed the urgent need of an auxiliary, or second, language-calling special attention to Esperanto in meeting the various tests. Esperanto, by reason of its paramount place in the list (being endorsed-and used, in Governmental, Scientific, Educational and Industrial service) commanded the greatest attention. The short dialog, in Esperanto, between Mrs. Morris and Mr. Dodge, and Mrs. Morris short recitals from the Esperanto poems: "La Vojo" and "La Espero", were received with much enthusiasm-not only by the several Esperantists, but by many who never heard the language. The I A L A was organized for the purpose of testing out the merits of the various attempts at the production of a second language, and eventually adopting the one, or combinations of the best parts of different ones, as the Universal. The members have "open minds"-no bias in favor of candidates.

THE NEW YORK ESPERANTO SOCIETY, at their Barco in the Hotel New Yorker, evening of Jan. 9th, had as their guest the entire force from Central Office-the National Secretary, Editor of "AE", Stenographer, Typist, and Office Boy-He explained how the wheels went around in the EANA machine.
