JULY 4-5-6-7 1940 ********* ON TO LIMA"

ATTEND CONGRESS BY PROXY. There are, doubtless, some of the older Esperantists who would be proud of the privilege of helping some of the younger ones to attend the \$ 🛪 National Congress—if they cannot go themselves. Absent members may vote by placing 🛪 duly prepared proxies in the hands of members who are to be present-indicating on x first ballot, their choice of candidate; after the first ballot, the person holding r. the proxy may use his own judgement.-A member is one who has paid his E.A.N.A., dues. Only paid-up members have the privilege of the floor at the Congress. ESTU PRETA. * * * * * * * * * * *

PROXY -of absentee. The undersigned member hereby appoints. to act, in my absence, as my proxy, to vote on all matters where proxies are permissible. Officers to be elected: President and Secretary for two years, Treasurer for one year -- to fill out unexpired term of Mrs Walter.

HAVE YOU MADE A SELECTION ? For President of EANA—we have not heard anyone say that there could be better than the one we have. He is the best known and HARDEST WORKER FOR THE BETTERMENT of the ESPERANTO MOVEMENT—Joseph R.Scherer.

S-ANO WILLIAM PLAMPIN, President of the Esperanto Club of Washington, will take over the work of Mrs. Walter, who has resigned, as National Treasurer, until the coming Congress.
"BILL" has been a consistently ardent worker for Nia Afero for several years—many of the delegates to the last two Congresses have met him. Due to his knowledge of the work, we look upon him as the logical candidate to fill out Mrs. Walter's unexpired term—gis 1941.

SECRETARY -- Editor -- Typist -- Information Bureau -- Office Boy - etc., etc., This fellow must be able to devote all his time to the job, have money enough to keep self and family - without working—also chip in occasionally to keep the bookkeeping department 'out of the red'—to be all that is required he must have his head on his shoulders, his ear to the ground, his shoulder to the wheel, his nose to the grindstone and both feet on the ground. WHERE IS HE?

ANOTHER OF MISS DORIS TAPPAN'S CSEH-METHOD GROUPS, This photo shows her Thursday night group. While she has been in the hospital, F-ino Helen Morton and S-ro George A.Connor have cooperated in teaching her classes (See photo of the three cooperators elsewhere). It is worthy of note that this group continues with enthusiasm—and added two new membersunder three succeeding teachers. This is due to the carefully planned syllabus of the Cseh-Method Course, and the identical training of 6seh-Method teachers. " ESPERANTUJO " IS IN MOURNING! "

Of all the countries in the world, the Netherlands is the one where Esperanto has been the strongest, reaching into the lives of the greatest share of the citizens. There. in the small city of Scheveningen, close by the Hague, S-ano Teo Jung has been editing with self-sacrificing fidelity both "Heroldo de Esperanto" and "Esperanto Internacia." the two official organs of the Internacia Esperanto-Ligo. The printing and mailing of the two periodicals has gone on across the line in Belgium.

And now the Netherlands and part of Belgium have been overrun by the armed forces of a regime which is officially hostile to Esperante, and forbids all membership in Esperante organizations within its national territories. It is true that our organizations are still permitted to function in the so-called protectorate of Bohemia-Moravia. the military occupation in the low counties may do, only time will reveal.

Those of us who have been receiving monthly or semimonthly our news of the Esperanto activities in the world from these sources will have no cause for surprise -- and surely none for complaint -- but only a cause for sorrow if the familiar and encouraging pages of these periodicals shall cease to reach us, at least for a while. Neither must we be surprised if Esperanto activities appear to slow down in other countries where people are in the grip of war's life and death struggle.

But as for us? We in a land enjoying peace, if we have deeply and sincerely understood and believed in the real mission of Esperanto, - its beauty as a language, its utility in practical ways, and its higher utility as a symbol and means of human brotherhood, -- we indeed have our duty set before us. And that duty can be to us a privilege and a pleasure.

Esperanto lived through the war of 1914-18; and it came out of that war - in what Somewhat exhausted -- yes. Temporarily curtailed in many of condition, shall we say? its activities. But essentially sound and undefeated, ready for renewed activities, new services and new victories.

It must be the same in the present struggle. Shall we Esperantists of the Americas feel at the end of the sad ordeal that we have realized our opportunity, have done our full duty?

We can maintain our own activities intact. We can support our organizations and increase their membership. We can teach Esperanto to classes of beginners and start them to enjoy what we are enjoying. We can keep on reading the already\significant library of good Esperanto books. We can do literary work in the language if individually we have the talent. We can correspond with samideanoj, especially in non-belligerent countries.

But most of all, we can keep our own faith warm and unfaltering.

"Truth forever on the scaffold, Wrong forever on the throne; But that scaffold sways the future; and, behind the dim unknown, Standeth God within the shadow, keeping watch above his own!"

And if a poet of our own country can give us these inspiring lines, we can also take to ourselves the admonition of the apostle, who said to a tiny minority in his day: "Stand fast in the faith, quit yourselves like men, be strong."

"FAITH in ESPERANTO to give MUTUAL UNDERSTANDING, HOPE for WORLD PEACE and PROSPERITY LOVE FOR ALL PEOPLES naturally follows".

BY YOUR MEMBERSHIP IN E.A.N.A. YOU WILL BE AIDING IN WORK ON BEHALF OF A HIGH 1DEAL.

With "Amerika Esperantisto" \$2.00 and , if you wish membership in the International Esperanto League (IEL) also, you can save money by our COMBINATION reduced rates: EANA-IEL membership, with Amerika Esperantisto, and the Jarlibro (Yearbook)-an encyclopedia of Esperanto information, for \$2.75-instead of \$3. All the above and the "Esperanto Internacia (monthly official organ of IEL) for \$3.75-instead of \$4. Or membership in both organizations, with Jarlibro, Amerika Esperantisto and the Twice a Month offieiel organ of IEL "Heroldo de Esperanto" for only \$4.75.

ESPERANTO ASSOCIATION OF NORTH AMERICA, 1410 H STREET, WASHINGTON, D.C.

(Twenty of the above volumes are original Esperanto works--oslance are translations)
Much of the world's great literature, from the Bible to "All Quiet on the Western Front," is available in Esperanto. Current books of world-wide interest, such as "Andrie's Story," appear in Esperanto simultaneously with the national editions. The exactness, flexibility and richness of expression of the international language make it an unrivaled medium not only for translation, but for original composition in prose or verse. The small bust is that of the inventor of the language, Dr. L. L. Zamenhof.

REPORT OF "ESPERANTO BOOK-READERS." Since the New York congress of last July the "Esperanto-Rondo de Librolegantoj de EANA" has experienced a measurable progress. The total number of registrants, then 36, has now grown to 50. Heartily we welcome and But the number is only a fraction of what it ought to be. congratulate the "new 14." Beyond a doubt, among the readers of Amerika Esperantisto there are several times a mere fifty persons who have read out of Esperanto literary works more than the minimum of merely 100 pages necessary to enroll them as "One-Star members" of ERL. To have two stars on the membership card, only 500 pages are needed, and so on up. Simply it is that the readers have not taken the trouble to enroll. Perhaps some are over modest and do not If anybody shall so request, his wish will be respected. wish their names published? In numbers there is encouragement. ĈAR ĜI VIVAS EN AMERIKO

de Joseph R. Scherer, Prezidanto de E.A.N.A.

La vojo al homa libereco estis longa kaj malrapida. Antaŭ 2000 jaroj la plej multaj homoj estis sklavoj sen propra volo. Iom post iom pro la presarto kaj per la ĝenerala kapablo legi kaj skribi liberiĝis la homoj el korpa kaj mensa sklaveco.

Sed restis ankoraŭ la lingva sklaveco. La ĝeneralaj homoj de la tuta mondo ne povas rekte babili kaj korespondi inter si. Eĉ la lertaj poliglotoj estas limigitaj al nur kelkaj lingvoj. Ĉiu estas malliberulo en la kadro de siaj kelkaj lingvoj.

Esperanto volas liberigi la vastan homaron el lingva sklaveco. Sed ekzistas homoj kiuj ŝatas la lingvan sklavecon de siaj ŝtatanoj, ĉar tiel estas pli facile inventi kaj kredigi internaciajn mensogojn. Historiistoj povas nur poste, tro malfrue, montri kiu ŝtatestro mensogis.

Plena homa libereco ne povas ekzisti kie regas lingva sklaveco!

Daúra paco kaj prospero ne povas ekzisti kie mankas homa libereco.

Ĉiu bona Esperantisto estas la portanto de lingva libereco kaj homa paco.

Maŝina civilizo estas danĝera kie regas lingva sklaveco. La maŝinoj estas danĝeraj en la manoj de homoj kiuj devas obei al la volo de unu viro.

Eŭropo jam tro longe vivis en lingva sklaveco. La plej multaj homoj tie ne rekonis la urĝecon de neŭtrala lingvo, aŭ ili estis tro mallaboremaj por lerni Esperanton. Nun la maŝinoj mortigas la homojn kiuj kreis la ferajn objektojn. Milionoj da homoj estas buĉataj ĉar ŝtatestroj eluzis la lingvan sklavecon aŭ ĉar ili ne estis sufiĉe prudentaj por pli vaste helpi la disvastigon de Esperanto.

Esperanto jam longe pruvis sian valoron. Aktiva financa subteno kaj ĝenerala deviga instruado en lernejoj kostus nur la prezon de kelkaj kanonoj kaj aeroplanoj....kaj ŝparus la koston de milionoj da pafiloj kaj pafilegoj. Certe venos la tago kiam la ŝtatestroj konstatos la valoron de Esperanto. Sed dume estas nia devo, la devo de ĉiuj gesamideanoj en la tuta Ameriko resti fidelaj. Tial mi petas vin:

Tenu viva en viaj mensoj la scion de Esperanto
Tenu viva en viaj koroj la volon lerni kaj instrui nian lingvon
Tenu viva en viaj animoj la firman volon al homa libereco,
Tenu viva en via spirito la volon venki la lingvan sklavecon
Tenu vivaj en viaj urboj la Esperantajn kursojn kaj klasojn
Tenu viva en viaj kluboj la spiriton de D-ro Zamenhof
Tenu viva en viaj landoj la propagandon por nia bona afero !!!

Dek-miloj da gesamideanoj nun perdis ĉion....familianojn, hejmojn, okulojn, krurojn kaj eĉ la vivon. Nun eĉ en la pacaj landoj Norvegujo, Danujo, Nederlando kaj Belgujo kie Esperanto floris libere, nia movado provizore malaperas pro kruela kaj barbara invado.

Amerikaj gesamideanoj! Num ni devas montri al la mondo eksterordinaran oferemon per pago de membrokotizoj kaj abonprezoj, kaj per aktiva kunlaboro. Estas num nia devo, pli ol iam antaŭe, vivteni Esperanton dum la plej teruraj horoj de homa buĉado. Ni promesis ke ni ne forlasos la ŝipon.

ESPERANTO NE MORTOS — ĈAR ĜI VIVAS JAM FIRME EN AMERIKO :

Never before have Americans taken such an interest in foreign affairs as at the present time. Whereas the at the present time. Whereas the American of yesterday knew little and cared less of events taking place in other countries, today's American strives to keep abreast of the latest developments. Topics which are international in scope have a new meaning for him, and among these is the matter of an international language.

To the average person this means speranto. There has been a notice-Esperanto. Esperanto. There has been a notice-able revival of interest in Esperanto during the past few years and many. Americans have taken up the study of this tongue. But many others still have not understood the significance and far-reaching effects of the Esper-anto language and movement.

anto language and movement.

There are those who advocate the adoption of a national tongue * Who can expect the French and Germans, for example, to urge the adoption of English as the one to be chosen? Therefore, Esperanto must be con-

sidered.

It was a little more than a half-century ago — July 14, 1887, to be exact—that a little book came off the press in Warsaw, Poland. It was entitled "The International Language, Preface and Complete Text" by Dr. Esperanto (Esperanto, the Hopeful One). One).

In reality Dr. Esperanto was the nom-de-plume of Lutdwig Lazarus
Zamenhof, a Polish physician who had
just presented his international language to the world and had modestly
ceded all rights to it, because he wished it to be the common property of

everyone.

L. L. Zamenhof was born on December 15, 1859, the son of a poor school teacher. His birthplace was school teacher. His birthplace was the town of Bialystok, then belonging to Russia, recently to Poland, and which is now again in Russian control. Thanks to that famous policy of "Divida et Imperata"—divide and rule—the various nationalities in the Russian empire lived together in mutual hatred and strife. The Russians, Poles, Germans and Lithuanians hated each other—and they hated the hated each other—and they hated the Jews. So it continued in a never-Jews. So it continued in a never-ending vicious circle. Distrusting each other, hating their neighbors, suspec-ting the people of different national groups; because they spoke different languages.

Zamenhof reasoned that if languages

Zamenhof reasoned that if languages could build walls between the peoples, surely the right language should serve as a bridge between them He further reasoned that such a language would have to be a created one because it would be neutral and therefore acceptable to everyone. That was the one aim in Zamenhof's life. The Tower of Babel must be destroyed!

tongue. Wherever there is the ten-dency on the part of any group of people to learn languages, there one will find Esperanto.

Esperanto is widely used in inter-Esperanto is widely used in international scientific, commercial and pedagogic circles. It has long been recognized as the outstanding claimant to the role of an international language. In 1922 the League of Nations recommended that it be taught in the schools of the world. The International Telegraphic Union in 1926 recognized Esperanto as a "clear" language for use in telegraphic parlance. Governments of many nations have found that tourist literature in Esperanto bring results. ture in Esperanto bring results.

Esperanto is also extensively used in radio. Most broadcasts emanate from European stations. Many radio stations in the United States give co-casional broadcasts in the Internation casional observations KOMA of Okla-al tongue. Stations KOMA of Okla-homa City and WHK of Cleveland give regular programs; that of the latter is now in its second consecutive year.

It is worth while to learn Esperanto solely because of its literature. Thousands of choice works, both original ands of choice works, both original and translated, are readily obtainable. The Holy Bible and many of the Classics have long since been translated. Anthologies—gem collections—are also to be had in Esperanto.

Of interest to movie fans is that Esperanto was used in several scenes of MGM movie "Idiot's Delight."

(Also Paramount's "Road to Singapore" . and "Conspirator", have been shown. "Victory" is now in production-Ed.)

The language itself was logically constructed. There are 5000 word roots which are international in meaning. Also a list of prefixes and suffixes. There are only 16 grammafixes, there are only 16 grammafixes, there would be a phonetic alphabet. The wowels passed on the state of dominate, thus making the language suitable for singing. A Columbia professor has demonstrated that Esperanto can be learned in one-tenth the time necessary to learn other languages. To give one an idea of the

language read this—Ni insistas ke či-tiuj verajoj estas memevidentaj; ke čiuj homoj estas kreitaj egalaj; ke ili estas dotitaj de la Kreanto per certaj neforpreneblaj rajtoj; ke inter ci-tiuj estas la rajtoj al vivo, libereco kaj la sercado por felicado.
This timely message comes from the Declaration of Independence and

We hold these truths to be self-evident; that all men are created equal; with certain inalienable rights; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty and pursuit of happiness.

She studied alone, beside an oil burning lamp, in the farm home. She obtained text books and literature. In an Esperanto publication names and addresses were published of Esperantists else-where and Miss Emery began corresponding with several.

One Norwegian, Ole Gellein, came to America via Canada, following correspondence with Miss

Esperanto is not intended to supplant any national language, but to supplement each one.

"Children master the language quickly," says Mrs. Smith. "It is not difficult for adults, if they give lit sufficient attention."

She estimated that Esperanto can be learned sufficiently to speak fluently in about one-tenth of the time necessary to learn any na-tional language. It has only 16 grammatical rules. Each letter al-
