From the Editors of the North American Esperanto Review

We are substituting the enclosed issue of an important international Esperanto periodical for our usual Review, in order to offer our membership a varied, high-quality fare while saving our time and money for a better-than-ever publication of our own in the Fall. There is little point, it seems, in printing Esperanto periodicals unless they are worthy of distribution in other countries, and this is the standard by which the Review must be judged.

American Esperantists should be eager to send it to correspondents in other parts of the world. Conversely, Americans should be acquainted with actual samples of the best international Esperanto press, although none can be expected to subscribe to all the outstanding magazines. By sending such a magazine, purchased in bulk, once or twice a year to our membership and subscribers, we can add to your libraries with a bargain purchase which nevertheless boosts the income of a good foreign magazine, and may bring it more subscribers.

Monda Kulturo, our present choice, comes in a selection of back issues--never out of date, however--and you may want to enrich your reading by exchanging copies with other members. Please let us know your feelings about this experiment to guide planning for the future.
